EXPERIENCE

Magnetic Core Co., Ltd. December 2025 – April 2026

IT Support

- Acted as an IT Outsource (RIS team) stationed at the Central Group warehouse (BDC1).
- Managed all IT equipment data across the warehouse (Monitors, PCs, Notebooks, Printers), recording detailed specifications including S/N, TagRIS, Computer Name, Brand/Model, Windows Version, and physical location to facilitate rapid maintenance.
- Troubleshot IT equipment and basic network issues, including Printer IP management, ensuring continuous and smooth warehouse operations.
- Provided remote technical support and consulting via AnyDesk.
- Resolved technical issues and tracked progress utilizing a Log/Ticket system.

Rat Premium Transport Limited Partnership December 2024 – May 2025

Data Entry Clerk

- Recorded job details from delivery drivers, categorized tasks into respective company logbooks, and accurately entered data into Excel for billing generation.
- Maintained financial records including fuel costs, vehicle maintenance, withholding tax, and various expenses, summarizing overall income and expenditures.
- Developed an AppSheet application for vehicle maintenance tracking, enabling drivers to log repair details directly into Google Sheets.
- Created an AppSheet application for automated receipt generation, converting inputted data into PDF files and dispatching them via automated emails.

PROJECTS

Online-Course-Management-and-Selling (Graduation Project)

Full-Stack Web Developer

- Developed a full-stack e-learning platform featuring a user storefront and a comprehensive Admin Panel for managing courses, users, and orders.
- Integrated a real-time data dashboard to track revenue, daily sales metrics, and top-selling courses.
